Wednesday March 14, 2012 – 7:30 PM

GUEST: Ron Dunn

Ron Dunn is defined if by nothing else for the love he shares with his beautiful wife of 21 years Ruth, their two sons David (18) and Jacob (13). Born and raised in Windsor, Ron is number 4 of 6 children, he is 42 years old. Ron received a certificate in Business Management from St. Clair College and a professional designation awarded by Province of Ontario as a Certified Professional Inventory Manager.

At a young age Ron felt the call to serve God, Mission trips abroad, local involvement in his church and even a visit to St. Peter's Seminary were not enough to have him answer that calling. While he continued on his faith journey, he entered the work force mostly in mid to senior level management positions with companies such as Magna International, Casino Windsor and Blackburn Radio. Eventually, owning and operating Dunn Publishing Inc.

Finally answering the call to serve God "full time" Ron who was volunteering at the Board level for the Windsor Downtown Mission, made the decision to join the staff in September 2011. Ron now serves as the Director of Development & Community Relations. He enjoys the responsibility of helping to facilitate the 120,000 meals, 6205 safe sleep nights and a variety of other programs offered free to Essex Counties hurting and hungry. The Mission now in its 40 year of service to others receives no level of governmental support or United Way funding God is our only benefactor, He through the staff and volunteers of the Mission moves our community to continually support the work of the Downtown Mission.

Butler was honoured with the award Dec. 1. He received a Paul Harris Fellow award and was presented with a \$500 donation toward medical supplies for his next trip to Haiti.

Wednesday March 7, 2012– 7:30 PM

GUEST: Carlin Miller

Topic: Teen Pregnancy: Why we don't want to talk about it.

Teen pregnancy is a significant problem in our area with prevalence that exceed most metropolitan areas in Canada. This problem affects many beyond the young woman who is discovers she is pregnant. There are many factors that predict the problem and multiple solutions but all require that members of the community accept the discomfort that comes from talking about it. Dr. Miller will discuss what is available in our community and how other communities cope.
